Platinotype Photographs.

Mr. L. HART, F. R. M. S., lecturer at the Ballarat School of Mines, and at the Working Men's College, Melbourne writes as follows:

"The Platinotype process is decidedly the most perfect process of photographic printing, as the metal is not affected by any sulphurous fumes or compounds such as are found in the atmosphere, whereas other processes are easily attacked by them.

"The impression is indeed unalterable and were it possible to hold a platinotype print in the hand for several hundreds of years the paper would crumble and rot away, but the photographic platinic image would remain intact.

"L. HART."

If you wish your pictures printed in platinum, see that you do not get imitations.

THE U. S. DREDGER

Will Be Used to Prepare Naval Station Here.

PLAN TO HURRY WORK

Blasting—Heavy Pumping—The Contractors—Material Now on the Way.

SAN FRANCISCO, April 28.—Work upon the construction of the naval coaling station at Honolulu will be rushed from this time until its completion, which is expected to be in about eight months. The contracts signed by the officials of the department have been received by the contractors, Cotton Brothers of Oakland, who will construct the piers, and Buckman & Campbell, who will do the dredging for the slips. Word preceded the actual arrival of the formally signed contracts by telegraphic notification from Washington to the men who will do the work that they would be given jobs, and they have made all possible preparations for the prosecution of the undertaking.

The work of dredging for the slips will be one of some magnitude, as there will have to be removed from the bottom of the bay something like 100,000 cubic yards of coral. There will be some little of this which will offer easy dredging, as it is soft and partially disintegrated by the flow of fresh water from the stream which comes into the bay at a point close to the site of the coaling station. The greater part of the dredging, however, will be in hard coral, which will have to be blasted before it can be elevated and sent ashore. For the purpose of meeting the conditions which obtain in the character of the bottom upon which they must work, Mr. Buckman has designed and is now having constructed a complete new dredge or shovel which will be used to bring to the surface the broken coral rock after the blasting from the bottom.

The timbers for the barge, which will carry the dredge, have been got out here and put together, so that, after the dismantling and shipping to Honolulu, there will be little delay and less expense in putting up the float. These timbers have now been shipped in the Mary Foster, and there will be ready for the machinery, when it has been made and shipped, the floating platform upon which it is to work. The dredge is of the pattern of steam-shovel which is used on the railroads of the West, where it is mounted upon a flatcar. There must be in the case of the dredge an entirely new plan of turntable and boom, for the reason that in this case the dredge must be constructed to go to a depth of 23½ feet below low water. Over the area which is to be prepared for berths for the vessels coming in to coal there is now from two to eighteen feet of water at the ebb tide, and there will be work for a large gang of men all the time during the carrying out of the contract.

There will be first a blasting out of the coral rock, which will be raised and dumped into a hopper on board a scow which will be moored alongside the dredge. On this scow there will be placed a powerful pump, which will keep such a stream of water flowing through the system of pipes leading to the shore that every bit of the coral will be deposited on the low lands about the docks and coal-bunkers. All the machinery, except the turntable and boom, will be made here under the supervision of the men in the employ of the shovel company. It is expected that actual excavation will begin about the 1st of June.

MILES MAY CALL.

WASHINGTON.—It is rumored that General Miles is to be sent to the Philippines to take charge of the campaign against the rebels. It cannot be confirmed at this time, but attendant circumstances indicate a good foundation for the rumor. It is not known if Miles asked for this or if the plan originated with the President. While not admitted by the Administration, it is supposed that one reason for sending Miles is the lack of decisive results by Otis. Another alleged reason is that Miles would be doing the country better service than by remaining in Washington fomenting criticism of the Administration.

FOR FIELD USE.

Bids have been opened and contracts awarded by the purchasing commissary of the Army in San Francisco for the quantity of fountain pens and indelible pencils, to supply all the officers in the field now in the Philippines. This action on the part of the War Department is accepted as evidence that officers will be required to write their orders in the field, with ink or indelible pencil, on pads furnished them as well, and to make notes and write dispatches and official reports in the same manner while on a march or during an engagement. All orders, memoranda, reports and dispatches, emanating from officers in the field or on the road will thus be preserved as a matter of record for future reference.

The ancient belief that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the affliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm will cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by all dealers. Benson, Smith & Co., Ltd., agents for H. I.

W. J. GUNN,
Real Estate Agent.

410 Montgomery St.

San Francisco, California.

The attention of those having capital to invest is called to the fact, that no city in the United States or probably no city in the world offers better opportunities to make profitable or fortunate investments in Real Estate than does the city of San Francisco at the present time.

A great many reasons can be given why San Francisco really will advance in value from now on.

I offer my experience and knowledge of values to intending buyers of business properties or residence sites. I can submit some very desirable purchases of Real Estate that will yield a fine income and steadily advance in value.

Information cheerfully given. Parties coming from the Islands who desire to invest are requested to call. I will be happy to correspond with any who may wish to obtain information in regard to San Francisco Real Estate.

Full charge taken of property and taxes paid for absent owner.
